Director's Message

R. Vanlalzaupa
Director,
Mission Foundation
Movement

MFM has now attained its 7th Anniversary under the guidance of our Gracious God. Praise Be His name. God has continuously bestowed his blessings upon us by giving us his anointed and noble partners from in and out of the State.

Slow but steadily, our humble organization is branching out to areas we never thought possible. When we started this organization, our first priority was to create a recovery programme for substance abusers. Sadly, drug addiction is rampant across Mizoram with many youth struggling with this problem. We created de-addiction center where we provide medication and counseling for drug addicts and many of them fully recovered from our center. Now we have Community Health Centers, Pharmacy College, Nursing School and several livelihood training centers across Mizoram. We are now partnering with National and International Organizations on various projects.

Today we love to mention that we are already blessed with 60 employees at various institutions under MFM. If nothing else, the position we are in today to create jobs for young people is something we are extremely proud of and we are confident that through this organization many more will have a steady livelihood using their own two hands.

Mizoram seemed insignificant with a small population, located in one of the most remote part of India. However, we set ourselves the highest of standards and we believe that, given the proper training, our youth can not only compete but excel at National and International level.

Lastly, we believe in our community and its potential and we will continue to work tirelessly towards creating a better and brighter future for our society.
